

The Rural Clinical School Research Group is mandated to support research, which enhances the delivery of healthcare to rural communities. Please include a brief explanation of how your proposed study meets **at least one** of the following categories:

1. Rural health workforce development (including recruitment and retention strategies)

2. Rural training strategies

3. Innovative rural service delivery models to enable the provision of health services to meet community needs

4. Health issues directly impacting on rural people, with a focus on benefiting communities within the University's catchment area through the delivery of better health services

5. Improving the health of Aboriginal and Torres Strait Islander people
