

ANAESTHESIA

Australian and New Zealand College of Anaesthetists (ANZCA)

To become an Anaesthetist, you will need to apply for fellowship with the [Australian and New Zealand College of Anaesthetists](#). Fellowship is a 5-year (full time equivalent) training pathway consisting of 4 training periods:

- 6 months Introductory Training
- 18 months Basic Training
- 24 months Advanced Training
- 12 months Provisional Fellowship Training (PFT)

Entry requirements/pre-requisites

- General Medical Registration with the Medical Board of Australia.
- Be a citizen of Australia or New Zealand or a permanent resident of Australia.
- 24 months prevocational medical education and training (earliest year of entry is PGY3), including at least 12 months of broadly-based clinical experience in areas other than anaesthesia, intensive care medicine or pain medicine.
- Secured a registrar position in an accredited training department.

Application and selection process – how to apply

There is a two stage process to becoming an anaesthetic trainee. The first is the [application](#) to the College (ANZCA) which can occur after 52 weeks of prevocational medical training (end of PGY1). Selection into the ANZCA program is based on your written application addressing the selection criteria and CV, an interview and supporting referee reports.

The second stage is registration which occurs once a trainee has secured a training position within an ANZCA accredited department.

In Queensland, the [Queensland Anaesthetic Rotational Training Scheme \(QARTS\)](#) is a sponsored body that is responsible for the overall recruitment and administration of the placement process, and they work closely with Queensland Health, therefore, prospective trainees need to apply for an accredited training position through the [RMO campaign](#).

Once you have secured the training position through the RMO campaign, you can then apply for registration with ANZCA and commence your training.

Regional training opportunities in Wide Bay

There are currently 5 ANZCA registrar positions in Bundaberg and 5 ANZCA registrar positions in Hervey Bay*.

***Position data valid as at October 2020.**

The following table outlines the training pathway and stages that the Bundaberg and Hervey Bay Hospitals are accredited for:

COLLEGE	SPECIALTY		Basic Training (Months)	Advanced Training (Months)	Years of Training (Years)	Earliest year of entry into program	TRAINING PROGRAM				
							Introductory Training (Months)	Basic Training (Months)	Advanced Training (Months)	Provisional Fellowship Training (Months)	
ANZCA	ANAESTHESIA	Maximum Approved Training Time across Introductory, Basic and Advanced Training	24	36	5	PGY3	6	18	24	12	Additional Information
	Bundaberg Hospital	52 weeks					✓ (Note maximum approved training time of 12 months)			✓	Bundaberg Hospital has the following pre-defined and pre-approved PFT positions: - 1x Education Fellow in Anaesthesia
	Hervey Bay Hospital	52 weeks					✓ (Note maximum approved training time of 12 months)			✓*	*Trainees would need to seek prospective approval for an individualised study plan

Map your Anaesthetic training pathway in Wide Bay

It is expected that all ANZCA trainees complete rotations in core, metropolitan and regional hospitals. In Queensland, there are 4 networks: Northern Hospital Rotation, Central Hospital Rotation, Gold Coast Hospital Rotation and Southern Hospital Rotation. Bundaberg Hospital is a regional hospital which forms part of the Southern Hospital Rotation. Hospitals in this network include: **Bundaberg Hospital**, Ipswich Hospital, Logan Hospital, Mater Hospital, Princess Alexandra Hospital, QEII Hospital, Queensland Children's Hospital, Redland Hospital, The Prince Charles Hospital and Toowoomba Hospital.

Hervey Bay Hospital is a regional hospital which forms part of the Central Hospital Rotation. Hospitals in this network include: Caboolture Hospital, **Hervey Bay-Maryborough Hospitals**, Ipswich Hospital, Queensland Children's Hospital, Redcliffe Hospital, Rockhampton Hospital, Royal Brisbane and Women's Hospital, Sunshine Coast University Hospital and The Prince Charles Hospital.

Please note that progress through the rotation is dependent on successful application to QARTS at PGY3, PGY4 or PGY5 for entry and ANZCA requirements for each training year.

The following tables provide example networked pathways from internship through to fellowship in the Wide Bay region:

Bundaberg Base:		ANAESTHETICS TRAINING PATHWAY - SOUTHERN ROTATION EXAMPLE					
PGY1	PGY2	PGY3	PGY4	PGY5	PGY6	PGY7	PGY8
Intern	RMO	RMO	Introductory (6 months) + Basic Training (6 months)	Basic Training	Advanced Training	Advanced Training	Provisional Fellowship Training (predefined plan)
Bundaberg Hospital	Bundaberg Hospital	Bundaberg Hospital	Bundaberg Hospital	QEII Hospital	Princess Alexandra Hospital	Queensland Children's Hospital	Bundaberg Hospital

Hervey Bay Base:		ANAESTHETICS TRAINING PATHWAY - CENTRAL ROTATION EXAMPLE					
PGY1	PGY2	PGY3	PGY4	PGY5	PGY6	PGY7	PGY8
Intern	RMO	RMO	Introductory (6 months) + Basic Training (6 months)	Basic Training	Advanced Training	Advanced Training	Provisional Fellowship Training (individualised study plan)
Hervey Bay Hospital	Hervey Bay Hospital	Hervey Bay Hospital	Hervey Bay Hospital	Redcliffe Hospital	Royal Brisbane and Women's Hospital	Prince Charles Hospital	Hervey Bay Hospital

Please note that whilst earliest entry is PGY3, this example pathway reflects that prospective trainees generally spend at least one additional year as an RMO or PHO before being accepted onto the training program.
